International Hydrogen Codes & Standards Workshop

Saturday, 29 August, 9am - 1:30pm
India Habitat Centre

In conjunction with the World Hydrogen Technology Conference

Hear success stories and lessons learned on hydrogen facility siting and demonstration projects, and explore synergistic opportunities in codes, standards and regulations development between India and surrounding countries. Share the challenges your group faces, and help formulate coordinated action within India and with other interested countries.

Visit www.hpath.org for more information.
