# Key Facts - MSHBC

---

- Governance: 501(c)6 Non Profit Association
- Membership: industry, academic, and government entities
- Mission: Build a base for hydrogen energy in Arizona, Colorado, Nevada, New Mexico and Utah; promote business interests of its members; facilitate joint efforts; and advocate for state and regional legislative activities that facilitate the commercialization of hydrogen energy.
- Goals:
  - **Catalyst for hydrogen business expansion in the region: fuel cells, H<sub>2</sub> internal combustion, distribution, and all methods of hydrogen production.**
  - **Help shape public policy for the fast, efficient and sensible deployment of a hydrogen infrastructure from a regional perspective.**
  - **Help refine roles, coordinate action, reduce cost and duplication of efforts.**
  - **Support state and federal hydrogen economy goals**
  - **Provide a forum for our members; encourage partnerships, communicate with the public**
  - **Emphasize inclusiveness of the hydrogen economy: renewable energy, sustainable energy, natural gas and zero emission**

**H207: The US & Europe Getting Down to  
Business –  
Implementation of the Hydrogen Economy**

**May 23<sup>rd</sup> and 24<sup>th</sup>, 2007  
Aberdeen, Scotland**

---

# H207: Presented by SHFCA, MSHBC and UKHA

## Endorsed by:

**Fuel Cell Europe**

AN ACTIVITY of the WORLD FUEL CELL COUNCIL
